

# Production times of i-ProDens GmbH

Indication		Material	Production times (in working days)*	
			Standard Data entry by 4 pm CET	Express production Data entry by 12 am CET
 <b>i-PD Implant prosthetics</b>	i-Butment®X	Cobalt-chrome milled	3	
	i-Butment®	Titanium/Cobalt-chrome milled	3	1
		Zirconia	3	
	i-Butment® on Ti-Basis	Cobalt-chrome milled	3	1
		Cobalt-chrome SLM	2	
		Zirconia	3	
	i-Bridge® X	Titanium	2**	
		Cobalt-chrome milled	3	
		Cobalt-chrome SLM	5	
	i-Bridge®	Titanium	2**	
Cobalt-chrome milled		3		
Cobalt-chrome SLM		4**		
Zirconia		4**		
i-Bridge® X New Connection	all materials	8		
i-Bridge® on Ti-Basis	Cobalt-chrome milled	3	1 (up to max. 4 units)	
	Cobalt-chrome SLM	2		
	Zirconia	3		
i-Bar®X/i-Bar®	Titanium/Cobalt-chrome milled	5		
 <b>i-PD Crowns and bridges</b>	Crowns, inlays, onlays, veneers	Cobalt-chrome milled	3	1
		Cobalt-chrome SLM	2	
		Zirconia, PMMA, LiSi <sub>2</sub>	3	
	Bridges	Cobalt-chrome milled	3	1 (up to max. 4 units)
		Cobalt-chrome SLM	2	
		Zirconia, PMMA	3	
 <b>i-PD RPD Frames</b>	Removable partial denture frames	Cobalt-chrome SLM	3	
 <b>i-PD Telescopic prosthetics</b>	Primary parts	Cobalt-chrome milled	3	1
		Cobalt-chrome SLM	2	
		Zirconia	3	
	Secondary crowns and bridges	Cobalt-chrome SLM	2	
 <b>i-PD Splints</b>	Splints	PMMA	2	1

\* The day the order is received counts as the first day of production if the data was received on that day by the deadline.

\*\* With Copy-by-Scan service: plus 1 working day

**General information:**  
This overview shows the production times. Weekends are not considered work/production days. Delivery usually takes place within one working day. Delivery times may vary and are always dependent on the geographical location and the delivery service used.

**Important:**  
For screw-retained implant prosthesis, in cases where we will receive a model from you for custom-fit manufacturing, the number of production days only starts being counted after the model is received.

**Also:** We will be happy to organise the collection of your model for you.

Our processes are optimised continuously – to ensure that you receive your order as quickly as possible.
